

Worksheet “Why do we need a defence attaché?”

Security and safety in Estonia relies on cooperation and partnerships with our allies. British military support can be traced back to the Estonian War of Independence and is still as important as ever. **In today’s e-lesson you will learn who is a defence attaché and what is his/her function.**

Use the worksheet as follows:

- Answer the question before the live stream
- Ask questions during live stream
- After the live stream have a discussion with your classmates and complete the exercise.

BEFORE THE LIVE STREAM

Watch the following [video](#) about British and Estonian troops with your class and **write down as many keywords as you can in the table below:**

Write down keywords from the video (i.e Afghanistan, Tapa, soldier, etc)

DURING THE LIVE STREAM

You have a chance to ask questions from the guest lecturer during the live stream. To do so add your question (or ask your teacher to do it for you) to Youtube chat as follows:

Kaari 12. Form, Kurtna School. How do you become a president?

Please be polite and precise while forming your question. Your questions are visible to everyone watching the live stream. The sooner you get to send your question, the more likely we are able to answer it.

AFTER THE LIVE STREAM

Form groups of 4 and divide the following roles between each other: *journalist, British soldier, Estonian soldier and the British defence attaché to Estonia.* For a moment try to get into the role and think about your everyday life in Estonia and your daily tasks.

Collectively think about 5 questions a journalist would ask the others in order to learn more about:

- **the cooperation and importance between Estonian and the United Kingdom and their troops**
- **the function of the defence attaché to Estonia.**

Orally discuss, to whom the question would be addressed and how it could be answered.

For example: “Explain your tasks here in Estonia”, “What do you have in common with an Estonian soldier?”

Write the questions here:

- 1.
- 2.
- 3.
- 4.
- 5.

Now create a video of a journalist interviewing the group of 3 people (your classmates) and imagine you are in Tapa Army Base. Upload the video to a shared Google Drive.

While looking at other interview videos, think if the interview sheds light on why cooperation between the UK and Estonia is important and the function of the defence attaché. Which question was your favourite in every interview?
